

## LESSON – THE UNITED STATES OF AMERICA

**KEY WORDS:**      republic                      district                      president                      nature  
                          mountains                      canyon                      national park                      ☺☺☺

*The U.S. (the United States of America) is an English-speaking country in North America. It is a federal republic with 50 states and a federal district. It is the fourth largest country in the world. Its population is 320 million people. The head of the country is the American president. The capital city is Washington, D.C., but the largest cities are New York, Los Angeles and Chicago. It is famous for the White House, Hollywood, N.Y. city, Las Vegas and its beautiful nature (the Rocky Mountains, the Appalachians Mountains, Great Lakes, the Mississippi and Missouri River, the Grand Canyon and Yellowstone National Park).*
